CALA 21st Century Librarian Seminar Project
Team Member Report
Seminar Location: Shanxi University, Taiyuan, China
Seminar Dates: From: 5/24/10 to 5/26/10

Your name: Susan Xue

Your topics:

1. 美国大学图书馆的参考咨询服务
   Reference and Public Services in University Libraries in the US

2. 美国图书馆资源共享的实践-加州大学个案研究
   Resource Sharing in American Libraries – University of California Case Study

Your evaluation of the seminar you have participated:

1. Great team-working during the seminar, particularly in Q&A session.
2. Seminar was well organized, good use of time.
3. Good overage of topics.
4. Local host worked with the team leader and the team well.
5. Communications between presenters and the audience went well.
6. It appeared that both presenters and audience enjoyed the workshop

Your suggestions:

1. Individual presentations were a little too long, too much information to absorb. It would be more productive if limiting each presentation to 40 minutes (using timer), and leave more time for questions.
2. Although the audience appeared interested in all topics, it might be more useful if future workshops focus on fewer topics and discuss them more thoroughly.
3. In the future, it would be very helpful if the workshops could identify topics as well as what the Chinese peers want to know about these topics.
